It is the fourth film in the series and the first in a decade, following *Revenge of the Fallen* (2009) and *Dark of the Moon* (2011). The film is directed by Michael Bay, written by Ehren Kruger, and stars Mark Wahlberg, Nicola Peltz, Stanley Tucci, Kelsey Grammer, John Malkovich, Bernard Hill, and T. J. Miller. The film features an ensemble cast, but focuses on the crew of a spaceship, the USS *Retribution*, which discovers a spaceship that appears to be an ancient Cybertronian vessel. Michael Bay has indicated that the story is not a sequel to the previous films and is intended as a stand-alone story. *Transformers 4* debuted in North America on July 1, 2014, in 3D and IMAX 3D, and in 2D on July 3, 2014. The film grossed \$700 million worldwide against a production budget of \$400 million, becoming the highest-grossing film of 2014. An extended edition of the film released in the United States and Canada on November 6, 2014, added another 45 minutes of additional footage, totaling over 3 hours of footage. A sequel, titled *Transformers: Age of Extinction – The Last Knight*, was released on June 27, 2017, which returned to the universe of the original three films, with Paramount Pictures as a partner company with Hasbro, and is in the process of being renamed as *Transformers: The Last Knight*. The next sequel, titled *Transformers: The Last Knight – The Ultimate Mission*, was released on July 10, 2019. The film was met with negative reviews from critics, who criticized its plot, characters, dialogue, visual effects, and use of humor. The plot and character development were criticized as being derivative of previous films in the series. The use of humor was also criticized, and the film received a negative reception from audiences and fans of the series. Many film reviewers noted the incoherent narrative of the film, and criticized its lack of consistency and continuity. Story On June 29, 2014, Paramount Pictures released the first teaser trailer for *Transformers: Age of Extinction*.<sup>[1]</sup> The trailer reveals that humankind has broken the treaty with the Transformers, a race of machine-like Transformers that live on the planet Cybertron. It further reveals that the Earth is now under the control of the sentient and powerful robot Prime, who is on a mission to retrieve the AllSpark, an ancient artifact and the source of Cybertron's magic that 82157476af
